OBJECTIVE

An urban mobility researcher with a Master's degree in Urban Science and Policy from Tokyo Metropolitan University. My work combines spatiotemporal analytics, GIS, and behavioural modelling to study micromobility, bicycle-sharing systems, and urban travel behaviour. With urban planning experience in Pakistan, I bridge practice and research to improve safety, equity, and reliability in cities.

EDUCATION

1. Tokyo Metropolitan University (TMU)

Tokyo, Japan

Master's in Urban Science and Policy

(April 2024- March 2026)

Research Focus: Urban Studies, Urban Community Development, Urban Policy Sciences, Participatory Urban Design, Urban Environmental Planning, Advanced Python Programming

Dissertation Title: Spatiotemporal Analysis of Bicycle Sharing Service Usage Pattern in Tokyo Across Seasons

2. Tokyo Metropolitan University (TMU)

Tokyo, Japan

Research Student at Urban Science and Policy

(Oct 2022- March 2024)

Research Focus: Big Data Analysis using Python, Qualitative Comparative Analysis (QCA), Quantitative Analysis, Spatiotemporal Analysis of Urban Mobility, GIS-based Data Visualization and Mapping.

3. University of Engineering and Technology, Lahore

Lahore, Pakistan

Bachelor's degree in City and Regional Planning

(Oct 2017- June 2021)

Cumulative Grade Point Average (CGPA): 3.874/4

Completed

Research Focus: Urban Housing, Housing and Urban Development, Urban Mobility, Transportation Planning, Environmental Planning and Management, Environmental Engineering, City Planning

Dissertation Title: Assessment of the Performance of Pannah Gahs (Shelter Homes) for Homeless People, A Case Study of Lahore

PROFESSIONAL EXPERIENCE

1. The Urban Unit

Dec 2021 - Sept 2022

Project Officer Urban Planning

I was engaged in master planning report writing, developing urban plans, and organizing workshops with stakeholders, including public officials and community representatives.

2. Tractebal

June 2021 - Dec 2021

Jnr. Urban Planner

I worked as an Urban Planner on an Asian Development Bank project in Pakistan for seven cities, contributing to spatial and sectoral master planning, report writing, stakeholder meetings, and workshops.

SPECIAL ACHIEVEMENTS AND AWARDS

- Japanese Government (MEXT/Monbukagakusho) Scholarship, a highly competitive international scholarship awarded for graduate study at Tokyo Metropolitan University (October 2022–March 2026).
- Higher Education Commission Scholarship (Bachelor's, Oct. 2017- June 2021).
- Ghulam Farooq Gold Medal at the University of Engineering and Technology, Lahore (March, 2022).
- University of Engineering and Technology, Lahore Gold Medal (March, 2022).
- High School Merit Scholarship (2015-2017).

CERTIFICATES AND COURSES

- Kitakyushu SDGs Training 2025 by Institute of Global Environmental Strategies, August 25 - September 5, 2025, funded by Kitakyushu city.
- Urban101x: Cities X: The Past, Present and Future of Urban Life from Harvard University ([Link](#))

SKILLS

- Python (Visual Studio Code)
- ArcGIS
- SPSS (Quantitative Data Analysis)
- Big Data Analysis
- AMOS (SEM)
- VOS Viewer
